Letter of Recommendation

I would like to strongly recommend Sagar Bhandari for admission to the graduate program at your university. I have known Sagar for about 4 years now as an undergraduate student in BCT Engineering. I taught him Database Management System.

I recall Sagar as a sincere and hardworking student. He maintained excellent academic performance throughout his undergraduate ranking among the Top 30% students of his batch. As an instructor and his supervisor too I had enough opportunity is observe his capabilities closely.

In fact, he was also able to publish a paper on Decentralized Electronic Health Record System.

I have noted his good presentation skills while he presented his work at our department as well as in the conference. I have seen that he has good leadership capability and has a teamwork spirit. He is a well-spoken person with a friendly and gentle personality. He is very helpful and cooperative student. He eagerly handed over his project work to his juniors who wanted to further continue the research on the topic along with proper guidance and resources. I have also been impressed by his communication skills during project presentations and lectures.

I appreciate his technical and professional skills. Besides academics, he was also involved in several extra-curricular activities . He participated in various competitions organized in and off the campus.

I am quite confident that Sagar's skills coupled with academic capability will make him a good candidate for your university. Thus, I would highly recommend him for the graduate program at your esteemed university. Please feel free to contact me if further enquiry is required.
