PROFILE

I am a highly passionate and dedicated individual with a strong love for reading and continuous learning. I strive to build a deep foundational understanding of various topics, always seeking to expand my knowledge base. Through constant self-analysis and reflection, I aim to improve myself both personally and professionally. My ultimate goal is to pursue a career in Deep Learning (DL) research, where I can contribute to cutting-edge developments and innovative solutions.

EDUCATION

[Tulsi Boarding Secondary School]   **Dang, Nepal**
Secondary Education (Schooling), Higher Secondary Education (+2)
Year of completion: 2021

[Tribhuvan University, Pulchowk Campus]   **Lalitpur, Nepal**
Bachelor's In Computer Engineering
Expected graduation year: June, 2026

First Semester: 82.76%
Second Semester: 88.46%
Third Semester: 82.86%
Fourth Semester: 84%

TECHNICAL SKILLS & INTERESTS

Skills:

- Programming languages: C/C++, Python, java
- Familiar with data science libraries: NumPy, Pandas, Matplotlib, Seaborn [*beginner level*]
- Basic knowledge of the Django Framework
- Basic knowledge of Game Development in C++

Online Courses:

- Machine Learning Specialization - Deeplearning.AI, Coursera
- Neural Networks and Deep Learning - Deeplearning.AI, Coursera
- Improving Deep Neural Network: Hyperparameter Tuning, Regularization and Optimization - Deeplearning.AI, Coursera
- Convolutional Neural Network - Deeplearning.AI, Coursera

Interests: Reading books, Music, Playing cricket
